

CHANGING STUDENTS' HEARTS AND MINDS FOR LIFE

Life begins here 
YOUNIVERSITY
Community Pregnancy Clinics

LIFE BEGINS WITH YOU

You know us as Community Pregnancy Clinics, Inc. (CPCI), the ones who've so far saved more than 15,000 babies from abortion since our founding in 1974. The ones helping women who regret taking RU486 ("the abortion pill") to save their babies with free Abortion Pill Rescue treatment. The ones with seven professional medical clinics, two of them on wheels, providing free and life-affirming services to a population of 2.5 million in eight Florida counties to date.

But there's an important group of people in our state — the young adult student population in Gainesville — who are getting to know us *not* so much as a life-affirming pregnancy clinic ... but as a trusted, professional and confidential resource for their sexual health and wellbeing.

And do they ever need us!

A dark force is at work in Gainesville, just like in major college towns across the country. As national statistics will attest, an insidious culture that encourages a risky sexual lifestyle is turning campuses into primary breeding grounds for unwanted pregnancy, sexually transmitted infections (STIs), abortion, and broken lives. These are the tragic symptoms of a campus culture now undermining the potential of top-rated University of

Florida's students — our future healthcare professionals, business leaders, teachers and parents.

When these young adults seek relief from their symptoms, will they find only the world's "solutions" ... contraception that is never reliable ... surgical abortions that destroy lives ... or the equally devastating chemical abortions that promise to make ending a pregnancy as "easy" and "convenient" as popping two pills?

Not on our watch.

With a groundswell of support from caring people like you, CPCI is working overtime in Gainesville to *eradicate* the cause — the campus hook-up culture — through our newly launched, unprecedented, forward-thinking, campus outreach program: YOUNIVERSITY. And just as our founding mission to help moms and save babies from abortion depends on generous supporters like you, so does YOUNIVERSITY need you standing shoulder-to-shoulder in this effort to protect and promote Life on campus.

Please read on to learn more ...

GAINESVILLE: A CULTURE RIPE FOR CHANGE

The compelling facts shown at right are the driving force behind CPCI's strategic and multi-faceted YOUNIVERSITY campus outreach initiative, where success is defined by lives touched and transformed.

YOUNIVERSITY was launched in 2019 with the opening of CPCI's fifth professional medical clinic in Gainesville. Providentially located within footsteps of the University of Florida campus, CPCI Gainesville is in the thick of a culture that literally needs life support.

Peel back the onion, and you'll find Alachua County is home to UF and Santa Fe College, both in Gainesville where students comprise 58% of the population. Here, as national and state statistics demonstrate, the "hook up" culture is prevalent in the 15-to-24-year-old age group of teens and young adults. And it is here—perhaps more than anywhere else in Florida—that the potential for change is powerful and far-reaching.

Through YOUNIVERSITY, CPCI seeks to prevent "crisis" pregnancies, abortions, STIs and shattered futures by taking *direct aim* at the culture which is their root cause. It begins by connecting with America's—and Florida's—most abortion vulnerable population: College Students.

THE STATS

Florida's highest abortion ratios* and rates of sexually transmitted infections (STIs) are found in counties with the **largest university enrollments**.

Gainesville's population of 131,000 includes **76,000 students** attending the University of Florida and Santa Fe College.

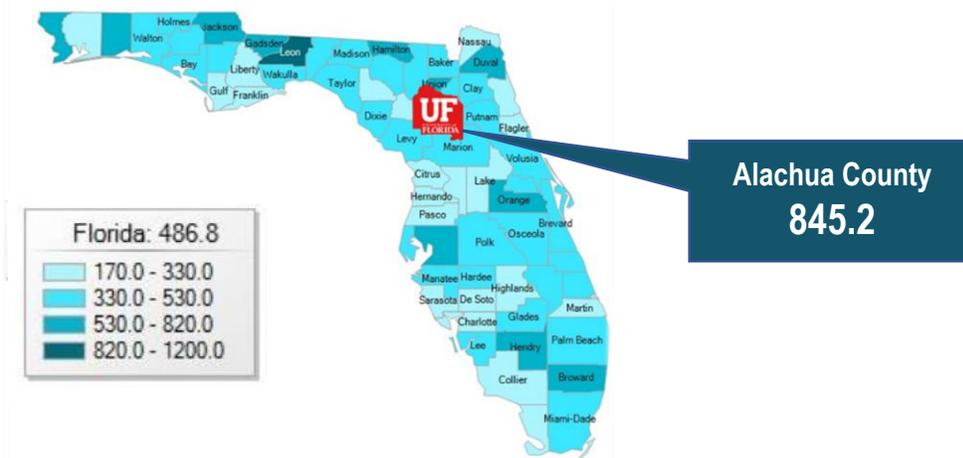

In Alachua County, home of the University of Florida at Gainesville, **560 babies are aborted** for every 1,000 live births.

Young people age 15 to 24 account for **over 50%** of the 22 million cases of STIs reported annually.

Alachua County's STI rate** is 845.2 — **175% higher** than the overall rate for the state.

* Number of abortions per 1,000 live births
** Chlamydia cases per 100,000 as of 2017

THE STATEWIDE IMPACT

Named by *U.S. News & World Report* as a Top Seven public university, the University of Florida attracts the best and the brightest students from all parts of Florida.

Notice the areas with the highest UF student enrollment tend to have the highest abortion ratios. How might this impact each and every UF student—possibly your own son, daughter, grandchild or friend—who will spend at least four years of their young, impressionable life influenced by a culture that sanctions all varieties of sexual activity outside of marriage, along with contraception and abortion!

Now consider the reverse. What if we can change their hearts and minds?

*The **Abortion Ratio** is the number of abortions per 1,000 live births. Data Source: Florida Agency for Health Care Administration—2016 Reported Induced Terminations of Pregnancy by County.*

WHAT HAPPENS IN GAINESVILLE

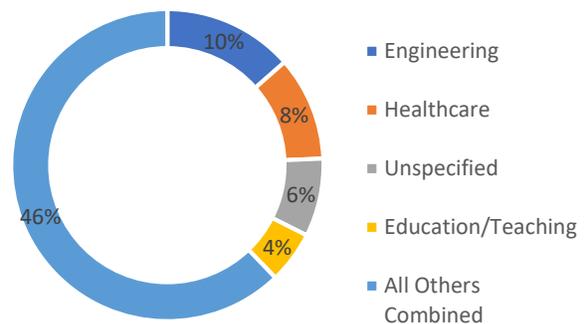

HAPPENS TO FLORIDA

Each year, Gainesville turns out thousands upon thousands of young, ambitious, graduates with tens of thousands more in line to follow. The most recent data posted on the University of Florida's career center website confirms the overwhelming majority of UF graduates start their careers and families here in our state. Many pursue careers in healthcare — as nurses, doctors and other practitioners in the public health arena, health administration, health education, life sciences, psychology and more. Their influence is also felt in the all-important field of education, as teachers, administrators and policy makers.

Clearly, they have enormous potential to make a difference. YOUiversity aims for every student to graduate not only with academic honors, but as champions of *Life*.

CULTIVATING LIFE ON CAMPUS

THE STRATEGIC BATTLE PLAN

“Meeting people where they are.” It might sound like a cliché, but reaching today’s students where *they* are is profoundly important. That’s why Planned Parenthood and its allies are sure to be found on campus sponsoring high-profile events and pitching their ideologies and “solutions” to vulnerable young minds. And that is why:

YOUNIVERSITY is 100% “student-centric”, with a visible and active presence throughout the student community — not just within the walls of CPCI’s Gainesville clinic, strategically decorated in UF colors and overlooking the Gators’ football stadium! YOUNIVERSITY aims to be *the one* resource for all students,

whether they’re pregnant on campus or looking for trusted information and support as they struggle with a sexual issue. Through YOUNIVERSITY, we are working to inspire healthy sexual choices by gaining students’ trust that CPCI is “not your mother’s pregnancy clinic” — i.e., not the stereotypical pregnancy center portrayed in the media as a place that shames “girls in trouble.” We offer real, life-changing solutions and counseling for both women and men, for all aspects of their sexual health — always free of charge, and all with CPCI’s trademark “care, compassion and choices.”

YOUNIVERSITY is a part of campus life through a growing network of strategic alliances with student health providers and advocacy groups ... campus internship programs for future medical and healthcare professionals ... student government organizations ... sororities and fraternities ... and faith-based groups and area churches.

YOUNIVERSITY is involved in student life through our presence at largely attended events. From new student orientations and housing fairs to student festivals, parades and Gators’ tailgate parties— YOUNIVERSITY aims to be there armed with life-affirming information and support.

YOUNIVERSITY is information, tools and support for the young adult on campus who is pressured on all sides by the “hook up” Culture of Death. Through CPCI’s professional counsellors, guest speakers and allies, our aim is to counter the destructive, prevalent culture with fundamental truths, rooted in natural law, about sexual integrity and the sanctity of human life.

REAPING REWARDS STATEWIDE

We know from 45 years of helping moms and saving babies that CPCI’s passion to protect and nurture Life is both transformative and infectious. CPCI clients and their families are likely to be transformed into “carriers” of — and cheerleaders for — our cause. The same can be said of the college interns and volunteers who work alongside us in our clinics ... the middle and high school students, teachers and parents who attend our free Sexual Health and Relationship Education (SHARE) seminars ... and, really, *everyone*, including you, who experiences CPCI’s positive influence in their community.

“THE KINGDOM OF HEAVEN IS LIKE YEAST THAT A WOMAN TOOK AND MIXED IN WITH THREE MEASURES OF FLOUR UNTIL ALL OF IT WAS LEAVENED...”

MATTHEW 13:33

Together, all of us are the “leaven” — with power to raise a Culture of Life throughout Florida. You’ve heard “it takes a village to raise a child” ... but once they’re raised it takes an *army* to protect our young adults from the pervasive “hook-up” culture and enlist them in our cause. YOUNIVERSITY is that army, comprised of CPCI medical professionals, experienced staff, volunteers, interns, strategic partners and allies, and concerned individuals who support this program with their time, talent and treasure. That is why the success of YOUNIVERSITY is *not* measured by the number of clients seen, services provided or babies saved—but by the number of lives touched.

HOW MANY LIVES WILL WE TOUCH?

Practically speaking, we cannot directly engage with 76,000 college students each year. But we can confidently project the steady rise of lives CPCI will *influence*—and the potentially far-reaching impact this can have. Case in point: When CPCI opened its second medical clinic in 2007 within view of Planned Parenthood in Fort Myers, 30 babies were saved from abortion at this location during its first year. By the end of the second year, that number soared by over 1,000%, with 364 babies saved. By 2017, the CPCI Fort Myers clinic had helped 5,447 moms choose life for their babies—an increase of over 18,000% over a ten-year period! Meanwhile, the Lee County

abortion ratio nosedived 37%, from over 400 to 265 babies aborted per 1,000 live births. Consider the power behind those first 30 women who walked through the doors of the Fort Myers clinic ... the small staff of professionals and volunteers who served them ... and the loyal CPCI supporters who helped make it possible. Consider the countless lives each of these people touched and transformed over that time!

STRENGTH IN NUMBERS

As they say on Wall Street, past performance cannot guarantee future results — but it’s a fair indicator of future success. Consider how CPCI’s Fort Myers data alone might forecast the impact of YOUNIVERSITY in Gainesville.

If YOUNIVERSITY reaches just *one* percent of the current Gainesville student population—760 students—during its first year, we might expect to reach a total of nearly 140,000 students over ten years—not to mention the indirect impact this will have on those students’ friends, families, coworkers and communities ... and, ultimately, *Florida’s abortion ratios*.

**10-YEAR
GOAL:**
Reduce
Florida’s
Abortion
Ratios

25%

JOIN US TODAY

We've just thrown a lot of numbers at you because, in a very practical sense, the battle for life is a numbers game. We never lose sight, however, of the reality that each number represents a precious life with unfathomable potential — from that of the unborn child ... to its mother and father ... to the young adult navigating his or her way through the campus culture.

And let's not forget you, with your enormous potential to impact countless lives in Florida as a supporter of Community Pregnancy Clinics. In fact, we've created the **YOUUNIVERSITY CLUB** for people just like you, and we urge you to join today in one or more ways, as follows:

YOUUNIVERSITY CLUB BOOSTER

With your generous donation in any amount, you'll help fund life-affirming and professional services and support, plus targeted events and activities for the duration of a typical student's college years.

YOUUNIVERSITY CLUB RECRUITER

Send us recruits! Refer your prolife University of Florida daughter, son, grandchild or acquaintance to our Gainesville clinic to enroll in YOUUNIVERSITY and help champion our cause on campus.

YOUUNIVERSITY CLUB AMBASSADOR

Help grow financial support for YOUUNIVERSITY by introducing us to your local and regional business and faith organizations. We'll come armed with a brief presentation and information about how YOUUniversity can impact your area of Florida.
